

## **Full Length Bio**

Chonna is a nomad from Texas with the heart of a singing princess and the soul of a poet. Growing up on the move, she found solace in the magical world of Disney. Her tumultuous childhood and life's wrong turns shaped her into the resilient and smiling woman she is today, but behind the mask lies a glimmering light battling to stay lit against suppressed emotions. Chonna turned her angst into poetry and found relief in the written word, but it was music that finally gave her the courage to express and share her inner darkness with the world. With her debut EP "inkBLOT", she hoped to inspire others to speak their truth and challenge the stigma surrounding trauma. Chonna invites you on a journey to heal through her music and poetry, and to ignite the light within us all.
